- QUALITY WORKWEAR -

SINCE **1946**

WHAT'S THE BIG DIFFERENCE?

BIG BILL®, a brand by CODET INC., was established in 1946, by Charles E. Audet, in Coaticook, Quebec. Today, BIG BILL® continues to be a fourth generation family owned business. Over the decades we have proudly manufactured our garments in Canada & the United States. We ensure that our garments meet the highest industry standards so you can feel secure & comfortable on the job.

BE PROUD OF WHAT YOU WEAR.

90% MADE IN CANADA + USA.

97% USA MADE FABRIC.

In the 1990s the BIG BILL brand grew two more niche focused divisions: Flame-resistant secondary protective apparel & safety footwear, keeping the same quality manufacturing intentions in mind. We stay current with emerging technologies and industry trends in order to bring you the best product possible. Our long history proves we understand the durable comfort you need to get the job done.

DISTRIBUTION + PRODUCTION

Supply chain, Distribution & Logistics

Our company offers a professional customer service and an experienced sales team. The company owns over 200,000 sq. feet of Distribution & Warehouse space, in North America. We also give production to (9) other contractors in North America. The close distance of our distribution centers allows us to serve you better in a faster way. Take note that we are also EDI and offer 2 web platforms to make ordering more efficient.

SAFETY.

YOUR **#1** CONCERN ON THE JOB,
& OUR **#1** TOP PRIORITY.

WHAT'S THE BIG DIFFERENCE?

Each garment is designed to meet the highest industry standards. We ensure that every fabric used and every stitch sewn provides the safety you need to feel secure on the job. Our products are compliant with a host of industry standards for use in work across North America and beyond.

SUPERIOR GARMENT CONSTRUCTION

All fabric selections have been UL certified to meet the necessary industry

consensus standards, such as NFPA 2112, NFPA 2113, NFPA 70E, CSA Z462, CGSB 155.20, ANSI 105, CSA Z96, NESC and OSHA 29 CFR 1910.132. We carry a wide array of hazard risk category clothing including: Pants, Jeans, Shirts, Henleys, Sweaters, Hooded Sweaters, Lab Coats, Coveralls, Bib Overalls, Parkas and Outerwear. So whether it's protection from molten metal splash, flash fires, combustible dust or electrical arc flash hazards, Big Bill FR has a product specifically designed to keep you safe.

BE SAFE. ANYWHERE.

MAKE *It* YOURS

CUSTOMIZE YOUR UNIFORMS

STRENGTHEN YOUR BRAND AWARENESS & BE SEEN.

Stock uniforms may work in many situations, but not all. Sometimes you need something different. Something more personal, or specific. Customize any in-stock BIG BILL® uniform to best fit your application and needs.

HV TAPE OPTIONS

Your crews have different needs depending on the job. Some need high visibility (**HV**) taping, others need enhanced visibility (**EV**) taping. Either way, we can customize any garment with 3M™ Scotchlite™ Reflective Material FR tape to meet your requirements. Ask a sales representative for size and color recommendations to maximize your visibility on the job.

EMBLEMS & EMBROIDERY

Need to make sure your company can be identified on the work site? Emblems and embroidery will go a long way towards strengthening your brand awareness and helping your workers stand out. Ask a sales representative for details.

HOW 2 MEASURE

FIND YOUR BEST FIT

VIEW OUR
Videos online
FOR MORE INFO!*

Ladies' FIT

1 BUST

Use a tape measure to measure loosely around the fullest part of your bust. Make sure you keep the tape measure straight all around your body.

2 WAIST

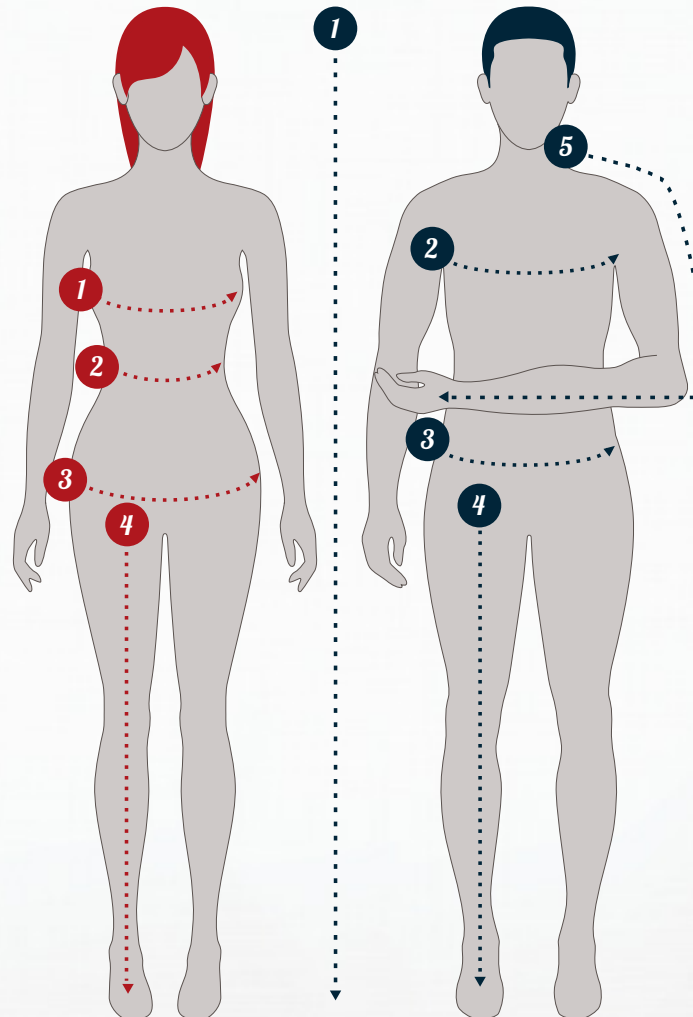

Measure around your waist at the height you prefer to wear your waistband. Measure over a shirt (not over pants).

3 HIP

Take a tape measure and wrap it around your hips. Make sure the tape is over the largest part of your buttocks.

4 INSEAM

Use a pair of pants that fit you well. Measure them along the inside seam of one leg from the bottom of hem to the crotch.

Mens' FIT

1 HEIGHT

Measure your height from the top of your head to the bottom of your feet (without any shoes on).

2 CHEST

Measure around the fullest part of your chest, just under your arms.

3 WAIST

Measure around your waist at the height you prefer to wear your waistband. Measure over a shirt (not over pants).

4 INSEAM

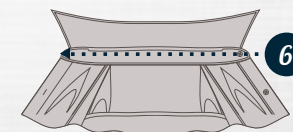

Use a pair of pants that fit you well. Measure them along the inside seam of one leg from the bottom of hem to the crotch.

5 SLEEVE

With elbow bent, measure from the center of the back of your neck around your elbow and to your wrist.

6 NECK

Measure around the base of your neck where a collared shirt would fit you, or measure a collar band on a shirt that fits you well. Measure from the beginning of the button hole to the center of the button.
