## PREMIUM SAFETY EYEWEAR

[WWW.CROSSFIRESAFETY.COM](http://WWW.CROSSFIRESAFETY.COM)

# PROTECTIVE EYEWEAR

Since the premium eyewear market is a multi-billion dollar market, it's apparent that millions of people have a self-expressive connection with their premium eyewear and place extreme importance on brand recognition. Brand recognition of eyewear goes beyond lifestyle and plays a serious role in the industrial markets because premium brands are a catalyst for compliance.

## STANDARDS & TESTING

- Eyeglasses are NOT safety glasses unless both the lenses and frame are in compliance with the specifications for safety eyewear described in the ANSI Z87.1 standard.

STANDARD	IMPACT SPEED	CALIBER / SIZE	PROJECTILE
ANSI Z87 + High Velocity	150 feet / second	0.25 inch diameter steel ball (25 caliber)	
	45 meters / second		
High Mass Impact	17.6 oz / 50 in height	17.6 oz / 500 g pointed projectile dropped	
	500 g / 127cm height		

# ICON LEGEND

Meets or Exceeds ANSI Z87.1+ Standards

Available with Scratch Resistant Hard Coat

Provides 99.9% UVA and UVB Protection

Provides enhanced vision by filtering damaging blue rays

Prevents lenses from fogging

Bifocal magnification

Meets CSA Z94.3 Standards

Provides protection against dust and debris

Can be worn over prescription eyewear

Adjust the length of temples

Polarized lens prevents glare

Customize the fit of the nosepiece

Adjust the lens angle

Adjust temples for the perfect fit

# PREMIUM EYEWEAR

**Our approach to design affords the end user a seamless link between the latest in style and cutting edge technology.**

- Advanced lens coatings for superior scratch resistant and anti-fog properties.
- High-end materials for polycarbonate lenses, rubber nose pieces and frames.
- Polarized and High Definition lens options for enhanced optical clarity.
- De-centered cut lenses to match the focal point with actual line of sight, again ensuring optical clarity.
- 99.9% UVA and UVB protection.
- Stylized lens colors and state-of-the-art frames that premium-brand consumers prefer.

## FRAME TECHNOLOGY

- TPR Technology increases the grip to keep glasses on your face.
- All polycarbonate lenses provide 99.9% UV protection and comply with ANSI Z87.1+ standards.
- Hard Coat provides scratch resistance.
- Flexible and durable Nylon materials on frames provide added durability and protection.

## ENHANCED OPTICAL CLARITY

The optically correct portion of the lens blank is pinpointed and marked at the focal point.

The de-centered lens is cut to match the focal point with actual line of sight, ensuring optical clarity.

## HD LENS TECHNOLOGY

Crossfire's High Definition (HD) Lens Technology provides enhanced vision by filtering the most damaging blue rays and allowing for more transmission of the High Definition light spectrum.

# PERFORMANCE EYEWEAR

Just as premium eyewear has a role in today's safety programs, performance protective eyewear meets a variety of needs at jobsites around the globe, especially when you have to protect hundreds of workers.

All of our safety glasses are ANSI Z87.1+ certified and have many features that provide comfort and protection, including 99.9% UVA and UVB protection.

Plus, you will find numerous styles, lens colors, and price points to satisfy a variety of budgets and safety programs.

## POLARIZED LENSES

The sun's rays reflect off of surfaces such as sand, water, and snow causing glare. Crossfire's polarized lens technology prevents glare by filtering out the reflected bent light and glare resulting in enhanced vision in harsh environments.

# POLARIZED EYEWEAR

## WHY CROSSFIRE® POLARIZED?

Crossfire® Polarized Safety Eyewear provides you with the availability of multiple styles and lens colors. Ranging from Blue Mirror to HD Brown lens options, we have eliminated the inconvenience of keeping up with multiple polarized glasses as you go from the jobsite to your favorite outdoor activity.

CROSSFIRE<sup>®</sup>  
by RADIANS

# BIFOCAL EYEWEAR

## WHY CROSSFIRE BIFOCALS?

We know you get tired of switching out your safety eyewear for reading glasses while your on the job. So we took some of our best styles from our Crossfire<sup>®</sup> line and added Magnification Diopters to the lenses giving you a Bifocal Safety Eyewear that you'll actually want to wear.

### CROSSFIRE<sup>®</sup> BIFOCAL STRENGTH CHART

Weak	Mild	Strong
1.5+	2.0+	2.5+
←	---	→

## es4 bifocal
