THIS IS WHAT IT MEANS TO BE ENGINEERED TOUGH™

At OccuNomix, we have been keeping workers safe, seen & comfortable for decades, starting as early as 1982; so you can do what you do in any kind of conditions. From ergonomics to gloves and high visibility apparel we make PPE that keeps you cool, fends off the chill, cushions the unexpected impact, and supports your body against strain. We care about your body at work and because our reputation rides on our name, we push our products to the limit with:

Constant Innovation

From bringing the best that the world market has to offer in fabrics and treatments to finding new and novel designs that change the way workwear functions. OccuNomix is focused on innovation that brings well-made workwear into the future.

Confident Workwear Compliance

We are committed to third party testing our products as the standards are always increasing and the risks of noncompliance even greater. Particularly today, we feel it is more important than ever to give you products that are proven to be what they say they are and perform the way you need them to protect you.

Functionally Driven Design

We still leverage our foundation in ergonomics to inform and build products that fit the body at work. For this reason, they have the features and design elements that first and foremost make you comfortable. After that, we provide the services that can customize them to the specific way you work - whenever necessary.

HIGH-VISIBILITY T-SHIRTS

LIGHTWEIGHT AND VISIBLE

OccuNomix was one of the first visibility workwear companies to introduce lighter weight polyester t-shirts that passed the ANSI standards. Ultimately, we have set the standard in workwear t-shirts conducting early high visibility t-shirt trials with our customers as well as participating on industry committees that set the ANSI standards. You should feel confident that we've got you covered when wearing our high visibility t-shirts.

HIGH-VISIBILITY OUTERWEAR

COLD WEATHER GEAR

The bomber jacket first gained popularity among workers in the 70's and 80's due to its sturdy design and heavy insulation that was required of early flight jackets. Now OccuNomix takes that sturdy design and insulated warmth and engineers it into high visibility bombers, parkas, rainwear, and many other types of outerwear that today's workers demand.

The thermometer below shows the ANSI tested, ASTM F2732, temperature range for garments. Whether you are standing out in the elements in between tasks or hard at work, we have the right gear for your winter.

- Pockets: 2 pass-through, 1 chest w/snaps & 1pen
- 25 Washes
- Sizing: S-5X

HIGH-VISIBILITY CLASS 2 VESTS

ONE SIZE DOES NOT FIT ALL

We entered the high visibility segment right as the ANSI/ISEA 107 High-Visibility Standard was established in 1999. Early on, workers were scrambling to simply find a vest that complied with the new standards. Today, preferences and applications are as varied as the choices in a toy store. That is why we have four different vest lines that each offer Class 2, Class 3 and other specialty options, like gloss tape or break-away styles. From the basic quality of our ECO series all the way up to 3M™ Scotchlite™ Reflective Material in our premium LUX series, you know what you need and we've got it.

HIGH-VISIBILITY SELF-EXTINGUISHING

Self-Extinguishing vests are made from treated Polyester to self-extinguish **as defined by ASTM D6413**. This type of garment should never be used where an arc flash or flash fire hazard is present. Typical applications are asphalt paving, steel erection, bridge building and other applications involving Flame Resistant hazards that result from errant sparks rather than open circuit electricity or a potentially explosive atmosphere.

TSE-IMBZ

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape

ANSI/ISEA 107-2015 TYPE P, CLASS 2

Requires less background material which allows easy access to duty belt equipment.

Type P is a public safety classification which includes Emergency & Incident Responders and Law Enforcement.

HIGH-VISIBILITY CLASS 3 VESTS

ANSI/ISEA 107-2015 TYPE R CLASS 3 vests as classified by the American National Standard for High Visibility Safety Apparel and Accessories. CLASS 3 vests are reserved for those working in the most dangerous environments where visibility is the highest priority. TYPE R is a Roadway classification for any occupational workers who are exposed to roadways where traffic is traveling in excess of 50 mph. Also applies to Emergency Personnel or those working in extreme conditions where visibility is at a minimum.

HEAT STRESS

TAKE ON THE HEAT.

You know us for MiraCool® – the original brand of evaporative cooling products. MiraCool® began with polymer crystals technology over 25 year ago and continues with Poly Vinyl Acetal (PVA) technology that has faster activation and a longer lasting cooling effect. And now we offer Tuff & Dry® perspiration management with our industry-leading wicking and evaporative cooling technology based on the revolutionary Coolcore® fabric.

YOUR GUIDE TO COOL

MiraCool® has been synonymous with the best of evaporative cooling for 25 years – whether it is traditional polymer crystal, PVA or Hyperkewl™ Technologies – lightweight super-absorbent materials. Our Tuff & Dry® products offer thermoregulation products that work through UPF sun protection, wicking and evaporative cooling – with our Coolcore® fabric.

MIRACOOOL® CRYSTALS TECHNOLOGY

- 25 years of proven cooling
- Crystal polymers plump with water
- Activates in 10-15 minutes
- Designed for quality, not slime
- Triple washed to avoid bleeding or staining

MIRACOOOL® ADVANCED FABRIC TECHNOLOGY

- Made from Hyperkewl™ fabric that absorbs and slowly releases water
- Soak in water for 1-3 minutes to activate
- Reusable and easy to recharge

POWERED BY
HYPERKEWL™ PLUS

MIRACOOOL® PVA TECHNOLOGY

- Super absorbent, durable, lightweight material
- Feels drier to touch
- Honeycomb texture on one side perfect for wiping down
- Activates in one minute
- Designed for 100% evaporative power (no fabric-cover-up)
- 2 patents pending
- Anti-mold & UPF 50+
- Self activating pouch

TUFF & DRY® WICKING AND COOLING TECHNOLOGY

- Chemical-Free Cooling™ fabric technology
- Wicks and cools - with or without water
- Activates instantly; snap when wet
- 23% more cooling power than microfiber
- 30% Cooler than your skin when wet
- Only product tested with proven cooling power*
- Anti-mold & UPF 50+
- Patented

MIRACOOOL® PHASE CHANGE TECHNOLOGY

- Cooling effect lasts for hours maintaining a constant temperature of 65° Fahrenheit for consistent cooling
- Cooling packs made from non-toxic materials
- Adjustable fit at shoulders and torso for cooling your core
- Available in regular or flame resistant
- To activate place cooling packs in freezer for an hour or soak in ice water for 20 minutes

*Powered by CoolCore® - the first product worldwide to be awarded the Hohenstein Quality Label "Innovative Technology - Cooling Power"

GEAR

D30®
.....

BY OCCUNOMIX
ANTI-VIBE

IT'S TIME TO GEAR UP.

OccuNomix has been engineering ergonomic work gear for over 35 years – starting with supports, hand protection, head protection as well as gear bags. At every step of the way, we gained a reputation for exceeding expectations by using the latest technologies available. Looking through our work gear today, you will find some of the most innovative materials ever applied to work gear – from inherent cooling fabrics and infrared textiles to high performance impact resistant materials. No one engineers work gear like OccuNomix!

COOLING PERFORMANCE GLOVES

Introducing the first work gloves to keep hands cool. Powered by Coolcore®, these are the only gloves with a patented and chemical free cooling technology, that offers independent lab proven, wicking, drying, and cooling. These gloves help hands stay dryer, longer, which means increased performance and safety.

WHAT IS CELLIANT® INFRARED FLEECE?

Celliant® is a cutting-edge infrared yarn technology. It recycles and converts escaping body heat into something that gives the body a measurable boost — infrared energy. It doesn't just trap the heat, it returns it back into the skin. The benefits are temperature regulation, reduced hand fatigue, and of course, warmer hands. Hands stay 5° Fahrenheit Warmer!

ANTI-VIBRATION

Anti-vibration gloves give protection for particular tasks such as operating jackhammers, chainsaws, grinders, and other heavy machinery. Construction workers shouldn't use these traditional tools bare handed. This can cause hand-arm vibration syndrome (HAVS). HAVS can occur in your fingers, hands, and even arms as a result of continuous exposure to heavy machinery vibration. In the palm of these gloves, is extra padding using various technologies to protect you, the hard worker! Invest in a pair today and keep your nerve in these shaky situations!

ALSO SEE **OK-CCG400** & **OK-CCG450** ANTI VIBE GLOVES ON PG 68

CUT RESISTANT

Spiral composite technology - The scientific build and enhancement of engineered yarns protects your hands from cuts and abrasion, while giving you ample dexterity and top-of-class range of motion. Look no further, we offer cut protection solutions at every level you need. These gloves are "A Cut Above™".

WHAT IS THE EN 388 STANDARD?

The EN 388 is a European standard which is designed to assess the performance of a fabric or layers of fabric for their ability to resist heavy rubbing, cutting by a blade or sharp object, tearing, and puncture by a pointed object. The test procedure includes a separate tests for each of these properties and a performance level is awarded according to each test result.

- Health & Safety International Magazine

D3O® KNEE PROTECTION

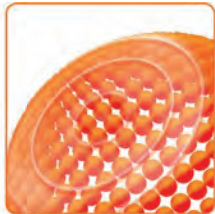

5X MORE PROTECTION THAN REGULAR FOAM KNEE PADS

We've partnered with D3O, the leading provider of impact resistant and cushioning foam, to create three knee pads that provide more comfort and durability. Strategically placed D3O foam under the cap absorbs impact from the ground while improving cushioning and all day comfort. Knee injuries are expensive. Our D3O knee pads offer great value.

HOW D3O® WORKS

Soft & Flexible Material

Upon impact, molecules absorb and dissipate impact energy

Returns to flexible state after impact

221-D

- PE Cap
- Hook & Loop Neoprene Split Strap Closure System

225-D

- PE Plastic Hard Cap
- Buckle & Strap Closures

226-D

- PVC Cap
- Buckle & Strap Closures

KNEE PROTECTION

A CRADLE FOR YOUR KNEES.

Knees are one of the most important joints in the human body. So why are you beating them up? According to the American Journal of Epidemiology, investing in knee pads decreases the risk of knee injury by 56%. That's why we made a line of affordable knee pad solutions, with Cradle Technology™, contoured to fit the knee.

121 (Black Hard PE Cap) **122** (Clear Soft PVC Cap)

- Gel Injected EVA Foam Padding is ideal for hard services
- Neoprene Split Strap keeps knee pads in place comfortable
- PE Cap with Slip Resistant Ridges

125

- Flexible Small PE Cap Design for long wearing and swivel movement

126

- Wide Flexible PVC Hard Cap Design

OK-KP-210

- PE Cap
- Contours to Patella for protection & comfort

127

- Rubber Cap with ridges
- Won't Mar Scuff or Scratch up surfaces

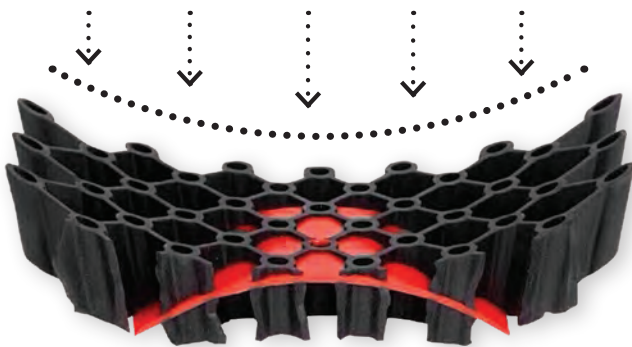

REDBACK® CUSHIONING

NOT GEL OR FOAM THE 3RD DIMENSION

Redbacks® award winning knee pads have been scientifically proven to outperform foam and gel knee pads. This patented leafspring technology has phenomenal compression with 100% return to form. It is curved to fit around the knee to eliminate point pressure and distribute weight evenly! You've never seen anything like this!

PATENTED LEAFSPRING TECHNOLOGY

ANSI Z89.1: Standard for performance and testing requirements - impact, penetration and electrical insulation

Type I: Meets stringent vertical impact and penetration requirements

Class E (electrical): Tested to withstand 20,000 volts
Class G (general): Helmets are tested at 2,200 volts

BUMPS. SCRAPES. NO PROBLEM.

Our traditional and baseball bump caps are intended to protect you from bumps and scrapes on the job. Our Polyethylene material offers both comfort and superior protection.

V450

- Traditional Bump Cap
- Comfortable Protection
- Suspension adjusts to sizes 6-7^{7/8}

BUMP CAP INSERT

V410 (Full Cap) V400 (Bump Cap Only)

- Baseball Cap Design
- Polyester Twill High Profile

ACCESSORIES

V896-R (Reg Brim)

V896-F (Full Cap)

- Mesh Cover with Reflective Strip
- Adds conspicuity to any Hard Hat

V897

- Insect Net
- Drawstring with stoppers on each end
- 17" W X 17" L

V350

- Chin Strap
- Compatible with V100, V200 and VF200

FLAME RESISTANT

STANDARDS MADE SIMPLE

ANSI/ISEA 107-2015 Standard

Since 1999, the standard has been recognized by federal, state and local authorities as well as private industry and provides performance criteria for materials used, specifies minimum areas and recommends placement of the materials. The standard's performance requirements focus on color and brightness of garments relative to the work environment and the combined use of fluorescent and retroreflective materials to make a person conspicuous in all light conditions, day and night. ANSI/ISEA 107-2015 includes criteria for flame resistance (FR) as an optional feature of high-visibility personal protective equipment. High-visibility apparel marked as FR must be certified as complying with one of the FR tests cited in the standard.

ASTM F1506 and NFPA 70E Standards

Garments that meet these standards are ideal for workers exposed to momentary electrical arc and related thermal hazards. Applications: Utility workers, Welders, First responders, Railroad workers, Oil & Gas workers

NFPA 2112-2018 Standard

Protection against flash fire. Garments that meet this standard are made from UL approved components. The garment itself must be UL approved - if not the garment is not NFPA compliant! Applications: Electrical, Utility and Oil & Gas to name a few.

ASTM F1891 Standard

Electrical Arc specific to FR rainwear

ASTM F2733 Standard

Protection against Flame Hazards (i.e. flash fire) specific to FR rainwear

BUILT FR.

OccuNomix has always engineered its FR garments to the highest standards possible – without compromise. So when choosing OccuNomix FR garments, you can feel confident that we've got you covered!

BLACK BOTTOM VEST

FR-VM2142

- 5.8 oz Mesh Modacrylic/Aramid
- 2" OCX™ Patented Segmented Reflective Tape
- Black bottom hides dirt!
- Hook & Loop Closure
- Flame Resistant Thread
- Flame Resistant Binding
- 25 Washes
- Pockets: 1 Outer Lower Right
- Sizing: M-5X

DUAL CERTIFIED FLAME RESISTANT

Don't miss the  symbol for dual certified items.

FR-TCR1200

- 6 oz Flame Resistant Treated Cotton
- Flame Resistant Thread
- Flame Resistant for the life of the garment
- Classified by UL to NFPA 2112-2018
- Sizing: M-5X

FR-TM2212 (Long Sleeve)
FR-TM2112 (Short Sleeve)

- 6.25 oz Modacrylic/Rayon/Aramid
- 2" Flame Resistant Reflective Tape
- Flame Resistant Thread
- Classified by UL to NFPA 2112-2018
- Pockets: 1 Chest Pocket
- 25 Washes
- Sizing: M-5X

FR-TM2243

- 6.25 oz Solid Modacrylic/Rayon/Aramid
- 5.5 oz Navy Flame Resistant Cotton - hides dirt
- 2" OCX™ Patented Segmented Reflective Tape
- Flame Resistant Thread
- Classified by UL to NFPA 2112-2018
- Pockets: 1 Chest Pocket
- 25 Washes
- Sizing: M-5X

LUX-SWTZFR

- 14.25 oz Modacrylic/Cotton Fleece
- Zipper Closure with storm flap
- High Neck Extended Hoodie for extra warmth
- Draw Cord Hood
- Flame Resistant Thread
- Flame Resistant for the life of the garment
- Classified by UL to NFPA 2112-2018
- Pockets: 2 Lower Front
- Sizing: M-5X

LUX-SWTFR

- 14.25 oz Modacrylic/Cotton Fleece
- Draw Cord Hood
- Flame Resistant Thread
- Flame Resistant for the life of the garment
- Classified by UL to NFPA 2112-2018
- Pockets: 1 Pouch
- Sizing: M-5X

FR-SM2313 (Zipper - 2 Pockets)
FR-SM2213 (Pullover - 1 Pocket)

- 14.25 oz Modacrylic/Cotton/Polyester Fleece
- 2" Flame Resistant Reflective Tape
- FR-SM2313 is a high neck extended zipper hoodie with storm flap
- Draw Cord Hood
- Flame Resistant Thread
- Classified by UL to NFPA 2112-2018
- Pockets: 2 Lower Front (FR2313), 1 Pouch (FR-SM2213)
- 25 Washes
- Sizing: M-5X

ASTM F1506 AND NFPA 2112-2018 COMPLIANT

FR-VM1112

- 6.5 oz Solid Tencel/Modacrylic/Aramid
- 2" Flame Resistant Reflective Tape
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread
- Flame Resistant Binding
- Classified by UL to NFPA 2112-2018
- Pockets: 1 Outer Lower Right
- 25 Washes
- Sizing: S-5X

DUAL CERTIFIED FLAME RESISTANT

DUAL CERTIFIED GARMENT?
 Garments are certified to:
ASTM F1506 – arc flash protection
NFPA-2112-2018 – flash fire protection

OCX™ Flame Resistant garments are certified by UL to **NFPA 2112-2018**. That means UL has verified each garment component, the factory and the garment as a whole all comply with the safety standard for flash fire. Look for the label inside the garment with the UL symbol

5 PT. BREAK AWAY

FR-VM1312

- 6.5 oz Solid Tencel/Modacrylic/Aramid
- 2" Flame Resistant Reflective Tape
- 5 Pt. Break-Away at shoulders, sides & front
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread
- Flame Resistant Binding
- Classified by UL to NFPA 2112-2018
- 25 Washes
- Sizing: S-5X

FR-VM1122

- 6.5 oz Solid Tencel/Modacrylic/Aramid
- 2" Flame Resistant Reflective Tape
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread
- Flame Resistant Binding
- Classified by UL to NFPA 2112-2018
- Pockets: 1 Outer Lower Right
- 25 Washes
- Sizing: S-5X

FR RAINWEAR

We offer a CAT 2 FR rainwear jacket and bib pants, with the highest level of comfort. Arc & flash fire protection ASTM F1891 and F2733 compliant.

LUX-TJR/FR

- 10.25 oz PVC Coated Modacrylic/Cotton Jersey
- 3M™ Scotchlite™ Reflective Material
- Waterproof with high frequency welded seams
- Storm flap covers non-sparking zipper and snap closure
- Raglan Sleeves
- Attached hood fits over regular brim hard hat
- Garment is logo'd with Arc Rating
- Modacrylic Mesh vented back with D-Ring access
- ASTM F1891(ARC FLASH) and F2733 Compliant (FLASH FIRE)

MAKE AN IMPRESSION

Why decoration? Decorated gear helps your team be even safer on the job site. Quickly identify personnel in crucial moments as well as maintain job site security by adding a logo to your gear.

OccuNomix is able to decorate a wide selection of the products we offer. Look for the Logo Ready icon in the product description to see if it can be imprinted. Questions about a particular product? Just call our friendly Logo Customer Experience team and we'll help you out.

Once you select a product, all we need is the logo. Services offered include artwork layout and preparation through individual bagging after decoration. We are a one stop shop of services customizable to make your life easier. Our team will guide you through each step of the process and get your team what they need to be safe on the job site.

MEASURE YOUR BODY FOR A PROPER FIT

Chest Size: Taken at the fullest point of your chest. Measure just under your arms and across shoulder blades holding the tape firm and level.

Waist: Measure around your natural waistline, keeping the tape snug, but comfortably loose.

Inseam: Measure from the base of your crotch to the top of your shoe. For a more accurate measurement have someone take this measurement. You can also measure a similar pant that fits you well. Lay the pant flat with the front and back creased smooth. Measure along the inseam from the crotch to the bottom of the leg hem.
