## PARTNER TECHNOLOGIES AND FEATURES

---

**3M**  
**Thinsulate**  
INSULATION

### 3M THINSULATE™ INSULATION

---

3M Thinsulate™ Insulation is engineered to be thin, lightweight and durable while providing exceptional warmth in cold and damp conditions.

# ARIAT® TECHNOLOGIES AND FEATURES

## ABRASION RESISTANT

Durable, specially woven fabrication prevents wear in high-friction areas.

## BREATHABLE WATERPROOF

Breathable waterproof garments are windproof, waterproof and seam-sealed. Surface fabric repels wind and water but allows body vapor to escape.

## COOL CLIMATE INSULATION™

Cool Climate Insulation™ provides optimal lightweight comfort and warmth.

## DURASTRETCH

Elastic fibers woven into fabric for maximum flex.

## GREATER ARM MOBILITY (GAM)

Ariat's Greater Arm Mobility technology extends inseams in the garment so shirt cuffs and shirt tail do not shift during optimal range of motion.

## LENS CLOTH

Hidden microfiber lens cloth on shirt tail.

## MOISTURE MOVEMENT TECHNOLOGY™ (MMT™)

Ariat's Moisture Movement Technology™ pulls moisture to the outside of the garment so it evaporates quickly, keeping you dry and comfortable.

## REVERSIBLE

Ariat's reversible apparel offers the hard-working versatility of two styles in one.

## STAIN-RELEASE

Stain-repellent finish provides protection against stains, dirt and other marks. This added feature is ideal for keeping outerwear looking new and unblemished.

## SUN PROTECTION FABRIC™

Provides protection from sunrays.

## ToughMAX™

Engineered for exceptional toughness, the flexible stretch canvas is the ultimate in comfort and durability.

## TRIPLE NEEDLE STITCHED

Triple needle stitched seams provide an extra level of durability and stand up to the toughest jobs.

## V3® STRETCH MESH

Ariat's exclusive, elasticized mesh panels, built into the styling, accommodate a full-range of motion and maximum breathability in the shoulder and upper torso.

## VentTEK™

Ariat's VentTEK™ technology features body mapping to enable air flow and regulate body temperature.

## WATER REPELLENT

## WIND & WATER RESISTANT

Wind and water resistant garments employ a thin technological coating on lightweight surface fabric to block wind and protect from light rain.

## WIND RESISTANT

# REBAR™ WORK SHIRTS

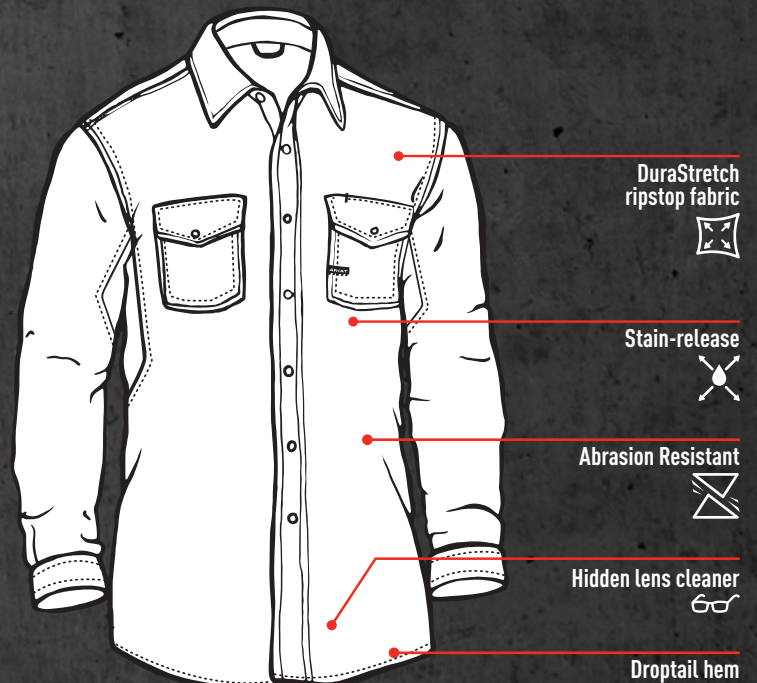

## BUILT TO LAST

Tough shirts that are easy to wear; Rebar™ Work Shirts are built for all-day comfort and durability on the job.

### FEATURES

- Lightweight, abrasion-resistant fabric won't weigh you down
- DuraStretch performance for added mobility
- Stain-release technology so stains wash out easily
- Longer shirt tail for extra coverage
- Hidden lens cloth inside shirt hem

# FR WORKWEAR

ARIAT  
CAT 212112

# WORKWEAR

Ariat® is a proven leader in high performance western apparel and is proud to offer Ariat® FR —a line of flame-resistant workwear designed specifically for hazardous work environments —delivering unmatched fit, flexibility, and performance.

## MEN'S CATEGORIES

- FR Work Shirts
- FR Base Layers
- FR Polartec® Collection
- FR Mid Layers
- FR Outerwear & Accessories
- FR Denim
- FR Pants

## WOMEN'S CATEGORIES

- FR Workwear
- FR Denim

## SAFETY RATINGS, SPECIFICATIONS AND CERTIFICATIONS

### ANSI 3 COMPLIANT\*

#### ANSI

American National Standards Institute (ANSI) 107 – American National Standard for High-Visibility Safety Apparel and Accessories. The 360° reflective coverage of ANSI 107 Type R Class 3 compliant garments provides the highest Hi-Vis safety rating for work environments where visibility is of the highest importance.

\*Based on independent testing

#### ASTM F1506

This American Society for Testing and Materials (ASTM) international specification covers the minimum design characteristics and performance requirements for occupational apparel worn by electrical workers exposed to momentary electric arc and related thermal hazards.

#### CAT RATINGS

A CAT is a rating assigned to dual hazard FR workwear that indicates the level of protection the garment provides against electrical arcs. CAT 0 represents the lowest level of rated protection and CAT 4 represents the highest level of rated protection. Most of Ariat's FR workwear falls within CAT 2 based on their ATPV ratings.

#### NFPA 70E

The National Fire Protection Association's (NFPA) 70E – Standard for Electrical Safety in the Workplace establishes requirements for the protection of employees from possible exposure to workplace electrical discharge hazards.

\*Based on independent testing

#### NFPA 2112

The National Fire Protection Association's (NFPA) 2112 – Standard on Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire establishes the requirement for certifying garments designed to provide protection of employees from possible flash fire hazards in the workplace.

\*Based on independent testing

#### OSHA 29 CFR 1910.26

This section of the Occupational Safety and Health Administration's (OSHA) 29 CFR 1910.269 covers the operation and maintenance of electric power generation, control, transformation, transmission, and distribution lines and equipment.

#### UL®

UL provides safety-related certification, validation, testing, inspection, auditing, advising and training services to a wide range of clients, including manufacturers, retailers, policymakers, regulators, service companies, and consumers.

## ARIAT® TECHNOLOGIES AND FEATURES

### BREATHABLE WATERPROOF

Breathable waterproof garments are windproof, waterproof and seam-sealed. Surface fabric repels wind and water but allows body vapor to escape.

### COOL CLIMATE INSULATION™

Cool Climate Insulation™ provides optimal lightweight comfort and warmth.

### DURASTRETCH

Fabrication with just the right amount of flex for increased mobility and all-day performance.

### FEATHERLIGHT FABRIC

Ultra lightweight fabric.

### GREATER ARM MOBILITY (GAM)

Ariat's Greater Arm Mobility technology extends inseams in the garment so shirt cuffs and shirt tail do not shift during optimal range of motion.

### MOISTURE MOVEMENT TECHNOLOGY™ (MMT™)

Ariat's Moisture Movement Technology™ pulls moisture to the outside of the garment so it evaporates quickly, keeping you dry and comfortable.

### SILVER REFLECTIVE TAPE

Increases visibility in accordance with safety regulations. Safe for home laundry.

### TRIPLE NEEDLE STITCHED

Triple needle stitched seams provide an extra level of durability and stand up to the toughest jobs.

### VentTEK™

Ariat's VentTEK™ technology features body mapping to enable air flow and regulate body temperature.

### WATER REPELLENT

### WIND & WATER RESISTANT

Wind and water resistant garments employ a thin technological coating on lightweight surface fabric to block wind and protect from light rain.

## PARTNER TECHNOLOGIES AND FEATURES

### POLARTEC® POWER DRY® FR

Created to give base fabrics greater efficiency, more dependable wicking properties, faster dry times and better overall performance. Thoughtfully designed mechanical wicking fabric and patented bi-component construction combine to create a superior base material that pulls moisture from the skin, expands for faster evaporation and lasts the life of the fabric.

### POLARTEC® POWER GRID™ FR

Patented grid design structure that reduces fabric weight while increasing warmth and compressibility in the process. This grid construction enhances both wicking efficiency and breathability by generating channels of targeted touch points that absorb and diffuse moisture vapor for faster evaporation.

### POLARTEC® WIND PRO® FR

By adapting Polartec® fleece structure through tighter knit constructions a new fabric composition that drastically reduces wind permeation has been created. Polartec® Wind Pro® provides the thermal insulation benefits, comfort and breathability of fleece with the added performance abilities to defy the wind and repel all forms of moisture.

### USA FABRIC

Crafted with fabric made in the USA.

# WORK SHIRTS

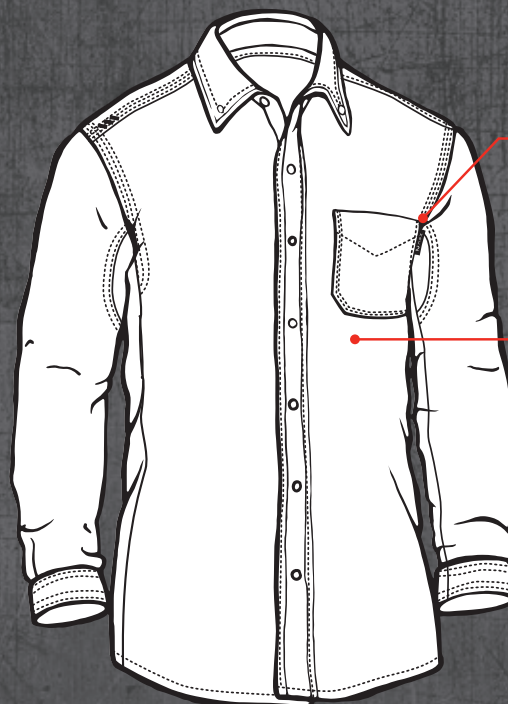

These hard working shirts are built for action featuring the same great fit and distinctive Greater Arm Mobility technology as our western performance shirts.

FEATURES

- All shirts feature Greater Arm Mobility (GAM)
- Machine washable

# BASE LAYERS

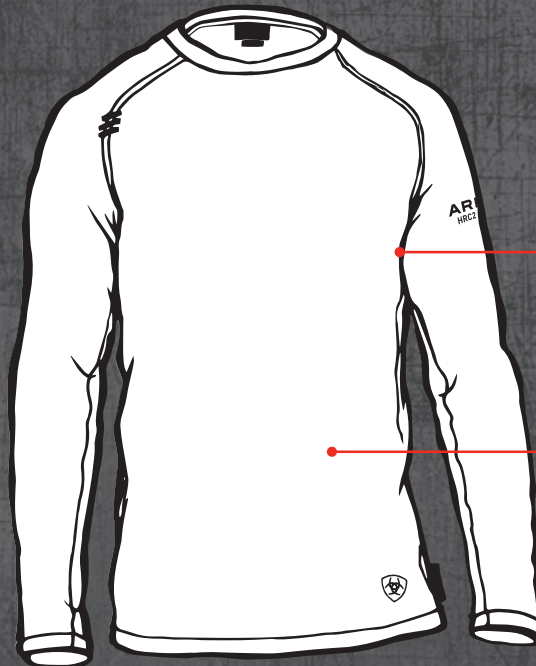

Ariat® FR Knit Shirts are constructed with the ultimate comfort, technology and durability in mind. FR fabric is soft against the skin and the taped inside back seam eliminates irritation. Plus, moisture management will keep you cool and dry.

## FR BASEBALL T-SHIRT

## FR WORKWEAR FAQ

### 1. Who is Ariat® Flame-resistant (FR) Workwear designed for?

Ariat® FR Workwear is designed for electricians and workers in the utility, oil, gas and petrochemical fields who are at risk of exposure of electric arc flashes and flash fires, which could cause severe or fatal burn injuries. Typical candidates for FR workwear include electric linemen, pipeline and refinery workers, as well as industrial electricians.

### 2. How does Ariat® FR Workwear help protect against burn injury?

Through the use of flame-resistant chemicals or fabric blends, Ariat® FR Workwear is designed to self-extinguish within seconds after the source of ignition is removed, which may permit the wearer to react to an accidental exposure. It is not designed to be flame proof; it is flame-resistant.

### 3. Can the flame-resistant chemicals be washed out?

Provided you follow garment care instructions for Ariat® FR workwear, reasonable laundering should not affect the flame-resistant properties of the fabric.

### 4. How can Ariat® FR workwear be distinguished from traditional Ariat Workwear?

Ariat® FR workwear is clearly identified with “Ariat FR” labels on the middle of sleeves, back necks, or on the coin pocket of denim. Product hang tags and CAT labels also help distinguish Ariat flame-resistant products.

### 5. What is a CAT?

A CAT is a rating for FR workwear that indicates the level of protection the garment provides. There are five CATs ranging from 0-4, with a CAT of 0 representing the least protection, and a CAT of 4 representing the most protection. The NFPA 70E consensus standard assigns these categories based on the electrical maintenance that is to be performed, and each CAT correlates to a specific range of ATPVs. For example, CAT 1 would include ATPVs equal to or greater than 4 cal/cm<sup>2</sup> but less than 8 cal/cm<sup>2</sup>.

### 6. What is an ATPV?

An Arc Thermal Performance Value (ATPV) is a rating assigned to flame-resistant workwear indicating the level of protection provided. Higher-weight fabrics typically have a higher ATPV and provide increased protection (as does the layering of FR workwear). All Ariat® FR Workwear has the ATPV marked on the hang tag for easy reference.

### 7. Can I repair my FR Workwear?

No. If you have a rip or other damage to your FR workwear, you must not use it.

### 8. Can I use DEET on flame-resistant workwear?

No. DEET is one of the most effective mosquito repellents on the market, but it should only be used on the skin, never on FR Workwear. For the most effective mosquito and tick protection, use DEET based repellents on skin (especially on exposed skin) and use a permethrin (the active ingredient in most lice shampoos) product washed into or applied to flame-resistant workwear. These products do not add any appreciable flammability to FR workwear and therefore do not affect its flame-resistant properties. When using permethrin in a spray form, use the WATER-BASED formulas only. Propellants are almost always flammable in this application, so the powder form washed into the workwear or the WATER-BASED spray formulas is recommended.

## FR WORKWEAR CARE INSTRUCTIONS

**WARNING: Failure to launder garment properly can result in loss of flame-resistance properties.**

- Dry cleaning does not affect the FR properties of the fabric, but, in some cases, dry cleaning chemical residue left on the fabric could burn.\*
- Flame-resistant workwear should be laundered separately from the family wash to prevent cross contamination.
- Washing new garments before wearing is recommended. Wash new garments separately from other garments.
- Turn garment inside out before washing for best results.
- Machine wash using typical home laundry detergent.
- Liquid detergents or other products containing hydrogen peroxide should not be used.
- Avoid starch, fabric softener or any other laundry additives such as soil release or anti-statics.
- Bleach must never be used on FR fabrics.
- Chlorine bleach (sodium hypochlorite) and oxygen bleach (hydrogen peroxide), either alone or in combination with other chemistry must never be used.

### Work Shirts:

- Wash on Cotton/Sturdy cycle
- Wash in Warm Water
- Tumble Dry on Cotton Setting
- Do not over dry the garments to avoid shrinkage
- Iron as needed on appropriate fabric setting

### Base Layers, Mid Layers, and Polartec® Workwear:

- Wash on Gentle cycle
- Wash in Cold Water
- Tumble dry on Low Heat, remove promptly
- Do not over dry the garments to avoid shrinkage
- Iron knits as needed on appropriate fabric setting\*

### Denim:

- Wash on Cotton/Sturdy cycle
- Wash in Hot Water
- Tumble Dry on Cotton Setting
- Do not over dry the garments to avoid shrinkage
- Iron as needed on appropriate fabric setting

\* Polartec® apparel cannot be ironed nor dry cleaned.

### MEASUREMENT GUIDE

**NECK** Measure around the middle of your neck, inserting a finger or two between the tape and your neck to allow for comfort.

**CHEST** Measure around the chest, under the armpits and over the highest part of your chest and shoulder blades keeping the tape parallel to the floor.

**WAIST** Find your natural waistline and measure.

**SLEEVE** Bend your arm 90 degrees and put your hand on your hip. Hold the tape measure at the center back of your neck and measure across your shoulder to your elbow, and then down to your wrist.
